MEMORANDUM FOR: Assistant Director for Research and Reports

SUBJECT : Proposed Transfer of [ ] to  
the Junior Officer Training Program

25X1

1. As you are aware, the first phase of the report of the Inspector General, resulting from his survey of the Junior Officer Training Program, has in essence been approved by the DDGI, with the result that the Program is to be increased in number as well as scope. Included in this report was the recommendation that assistants to the Chief/JOTP be added--one from the DD(I) and one from the DD(P).

2. In our search for the former, we approached [ ]. He suggested the name of [ ] who at a previous time had discussed his own development with [ ]. After several talks with [ ], who found members of your staff to be most cooperative in discussions with him, it has been determined that, pending your approval, a valuable and constructive element in [ ] career could be developed through his association with the Office of Training in the Junior Officer Training Program.

3. In addition to what appears to be [ ] real aptitude for this type of work, his knowledge of OTR in particular and the DD(I) in general should result in making the Junior Officer Training Program more valuable to these Offices with which he is familiar. Furthermore, he could act in liaison capacity on a panel, the establishment of which the DD/S has requested, for advising on acceptability of candidates for the Internal Phase of the Junior Officer Training Program administered by the Office of Training. This Internal Phase was formerly the Junior Career Development Program. I trust, therefore, that you will approve the attached action for the transfer of [ ] to the Office of Training.
